PORTFOLIO

2026 Open Championship: Statistical Favorites at Royal Birkdale
Independent Sports Analytics Project — seymourthomas.com

- Designed a five-table relational SQLite database integrating global golf performance and course-history data to build a weighted, composite predictive model
- Applied Bayesian shrinkage and SQL ranking queries to correct for small sample sizes, publishing findings in a data-driven recommendation memo

July 2026

Denver Nuggets 2026 Free Agency Strategy
Independent Sports Analytics Project — seymourthomas.com

- Built a custom SQLite database joining player performance, salary-cap, and contract data to identify high-ROI free agency targets under real cap constraints
- Developed a cost-per-win-share valuation framework via SQL, benchmarking candidates and presenting data-backed recommendations
